PROJECTS

07/2022 – 03/2023

GD- Global Disbursement

Client Name- HSBC

Global Disbursement provides payment across the globe with certain criteria and rules, and also facilitates payments with the help of third-party payment vendors worldwide. It includes multiple modules where we integrated RIA with the existing system.

Developed a Rule Engine to derive the MOP based on Country and Currency. RIA Integration covers End to End flow from Individual to Individual, Individual to Business, and vice versa.

- Provided support in Database integration & writing SQL queries.
- Uploaded the csv data into the database using spring boot.
- Wrote JUnit test cases for different APIs.
- Worked on version control tools & Deployment activities.
- Created technical documents for user stories.
